## Drawing on the Right Side of the Brain with Brian Bomeisler

**Skill Level: Beginner to Advanced**

**Monday, September 23 – Friday, September 27, 2019;**

**9:30 a.m. to 5:30 p.m.**

**\$1,600 members and non-members**

This intensive class is designed for individuals with little or no prior drawing training and perhaps believe that learning to draw well is only possible for those lucky people with “inborn talent.” However, it has been proven that the global skill of drawing any perceived object, person or place requires five basic component perceptual skills. These skills are the perception of edges, spaces, relationships, lights and shadows, and the whole or gestalt. Global or whole skills, such as reading, driving and drawing, in time become automatic with the integration of the component skills. Instruction by Brian Bomeisler, Dr. Betty Edwards’ son. Each day begins with a lecture on one of the five skills required. After lectures, students participate in drawing exercises, with Brian’s instruction, through the day. The day will end with a critique of the day’s session.

Brian Bomeisler received a Bachelor of Fine Arts degree from Pratt Institute Brooklyn, New York in 1975, and has been a working and showing artist since then. He lives and works in Soho, New York City. Bomeisler taught alongside his mother, Betty Edwards, since 1988 and since her retirement in 1998. For more information, visit [drawright.com](http://drawright.com).

## Intensive Painting/Color based on Dr. Betty Edwards’ book, *Color: A Course in Mastering the Art of Mixing Colors* with Brian Bomeisler

**Skill Level: Beginner to Advanced**

**Saturday, September 28 – Monday, September 30, 2019;**

**9:30 a.m. to 5:30 p.m.**

**\$975 members and non-members**

While we may appreciate the beauty and versatility of color, working with colors can be a challenge. Dr. Betty Edwards and Brian Bomeisler have designed a practical course in color as the next step and follow-up to *Drawing on the Right Side of the Brain*; it will give you confidence in your use of color and deepen your artistic perception. This three-day color workshop follows the book in content to perceive how light affects color; to understand how colors affect one another; to manipulate hue, value, and intensity of colors; to balance color in still life paintings; and to understand how the psychological meaning of colors can apply to your unique color expression and to your surroundings. (It is advisable to have a copy of the book, but not a requirement to take this workshop.)

**Day 1:** Slide lecture on various aspects of color followed by students completing paintings of value and intensity scales, then followed by a painted color wheel.

**Day 2:** Discussion of the psychological aspects of color followed by a painting which completes all aspects of color i.e. hue, value and intensity. **Day 3:** Review painting materials and surfaces followed by a demonstration painting of a still life by Bomeisler. This is followed by students completing a still life painting on their own.

## Watercolor Painting with Tony Couch

**Skill Level: Beginner to Advanced**

**Monday, October 7 – Wednesday, October 9, 2019; 9:00 a.m. to 5:30 p.m. and Thursday, October 10, 2019; 9:00 a.m. to 4:00 p.m.**

**\$450 members/\$500 non-members**

The workshop sessions begin as Couch completes a painting, explaining what he is doing, and why, as he paints. Students paint in the afternoons, after which Couch critiques all the day's completed work, including his own. Anyone 18 or older is eligible to enroll. An optional slide show/lecture on the principles of design — including color and composition — will be presented in the afternoon of the first day.

Couch received a Bachelor Degree in Art from the University of Tampa, and did further work at Pratt Institute in New York. Simultaneously, he worked as an artist for Associated Press and freelance illustrator while studying watercolor painting with Edgar A. Whitney, ANA. His book, *Watercolor: You Can Do It*, became North Light Publishing's all time best selling book on painting. It has been the textbook for several college art departments and was translated into Chinese for markets overseas. A follow-up book on technique went through three printings and was translated into Japanese for that market. A third, *Tony Couch's Keys to Successful Painting* was also published by North Light. His watercolor instruction articles have appeared in *Palette Talk*, *The American Artist*, *Australian Artist*, *North Light Watercolor Magic* and "the artist" magazines. His work is included in twelve art instruction articles and publications by other artists in the US., Australia and the UK. He has produced 10 "How To" Videos and DVDs, some of which are used in colleges and in various state educational systems via television. He conducts workshops throughout the US and abroad. ## Art Journaling: Visual Storytelling with Leslie Wood

**Skill Level: Beginner to Advanced**

**Friday, February 7 – Saturday, February 8, 2020; 9:00 a.m. to 4:00 p.m.**

**\$275 members/\$300 non-members**

In this two-day workshop, you will explore the many different sides of art journals; from getting past the blank pages to tips and techniques in capturing your words and imagery. An art journal is a combination of visual and written imagery that captures thoughts, ideas and images in a visual way. They can be travel logs, dream diaries, art techniques, therapy logs, storybooks, or anything. Anything goes in an art journal from using mixed media and collage, to paint, to pen and charcoal.

This workshop will show you some fun techniques to get past the blank white pages staring at you. It will introduce you to the different types of books and products that are commonly used for journaling. You will learn some techniques for working in journals that will aid in the creation of the pages in your own journal to start your journey into this medium.

Wood has been creating art ever since she can remember. She has a bachelor's degree in Aerospace Engineering, but after working for a few years, decided to go back to college and take art classes. She enrolled with the University of Alabama in Huntsville and studied photography, sculpture and painting. Over the years she expanded her creative skills with numerous master-led classes. Her work varies from mixed media and art journaling to sculpture and jewelry making. An avid art journaler, her journal work has been published numerous times in Somerset Studio's *ART Journaling* magazine including a feature in the 2016 Winter and 2017 Spring editions. ## Mastering Skies & Reflections in Oil, Acrylic or Pastel with Michael Story

**Skill Level: Beginner to Advanced**

**Thursday, March 19 – Sunday, March 22, 2020; 9:00 a.m. to 4:00 p.m.**

**\$525 members/\$575 non-members**

Master your landscape painting! Join South Carolina artist Michael Story for this four-day workshop as you use the sky and water as a dramatic design element in your painting's composition. The workshop will begin with a presentation of Michael's painting techniques from start to finish. You'll begin your painting with an initial charcoal drawing, followed by a color wash applied over the image.

Starting with shadow colors, you'll begin blocking in your painting, then progress from dark to light to completion. Building final layers of color and avoiding muddy mixtures, you'll achieve fresh, bright color while capturing depth, drama and mood in your work. He will demonstrate and provide photo reference to paint from, if desired, along with color exercises you may complete after the workshop.

Michael Story earned a BFA in Fine Art from the University of South Carolina in 1976. He later traveled to New York, studying pastel and oil painting under internationally known artist Daniel Greene. Today, he is an award-winning artist who regularly teaches pastel and oil painting. His paintings have been reproduced by major publishers and distributed worldwide. **A Walk Through Time** takes students on a journey through major events in art history and includes replicas of famous works of art.

## Fall Break Half-Day Art Camp

The Education department will provide structure, fun and friends in a safe, stimulating environment. Museum gallery visits included for inspiration. All materials are provided for the children's camps. Fee covers dates listed with each camp.

### CREATE: Mix It Up!

In this multi-dimensional camp, learn about the basic elements of art — color, line, shape and texture. Each day campers will make a new project using the "material of the day" including paint, marker, pastel, and other materials for embellishment. Explore many different areas of the Museum through gallery visits of exhibitions and the **Stender Family Interactive Education Galleries — ART LAB** and **A Walk Through Time**. Students will need to bring a morning snack and drink. (Please no nut products.) Space is limited to 12 students per camp session.

Register for all four Half-Day Art Camp sessions or as many as you would like.
